

With over 55 years of combined experience, TAE is committed to supplying our customer's with quality products. In supporting Procurement Departments, Trident Aerospace fulfills large or small projects across a wide variety of product lines. We primarily procure in the Maritime, Industrial, Aerospace and Defense industries, and this focus allowed us to double our growth yearly. We work with over 1300 Manufacturers and Distributors in these sectors. Honesty, Integrity, Communication, and Customer Service are our guiding principals.

Differentiators

- An update of open orders with status, or change in status, is sent weekly in order to give our customers peace of mind.
- Top notch customer service is the number one feedback we receive from our customers.
- Our employees' industry experience has helped fine tune TAE to what a distributor should be; honest with lead times, up front with communication, and focused on quality products.
- TAE's vast portfolio of diversified products ensures our customers have only one PO to issue and track, for the majority of their project.
- Maintaining relationships with various manufacturers as well as distributors, ensures our ability to offer stock if available.
